3203 80 Years of the Oscar: The Official History of the Academy Awards \$75

For the film industry, the Academy Awards is the most celebrated and most significant night of the year: everyone longs for the recognition of being nominated to win a little golden statuette. For most of us, however, even a walk down the red carpet is just a dream. 80 Years of the Oscar puts readers into those iconic plush seats for the thrill of the Academy Awards, from the first show in 1928, shortly after the introduction of the talking picture, to this year's eightieth anniversary. With hundreds of photographs and an informative text by Hollywood insider Robert Osborne, 80 Years of the Oscar is the official history of the Academy Awards. Organized by year, 80 Years of the Oscar chronicles the ceremonies themselves, as well as the accomplishments, trends, developments, and events that occurred, both within the Academy and for the film industry as a whole. Osborne comments on each year's most important films and shares the stories behind them. He also transports readers into the awards show, quoting from notable acceptance speeches and celebrity reactions, as well as regaling readers with anecdotes from each year. All award nominees and winners are included, with a special listing of Oscar record-holders. An indispensable and encyclopedic reference for the amateur and expert alike, from the struggling actor to the film critic, this book has been a popular favorite since its first edition was published twenty years ago, just after the sixtieth awards ceremony. The authoritative 80 Years of the Oscar provides a depth of coverage found nowhere else, and it is sure to please movie-goers around the world.

3406 James Couper Wright, California Watercolor Landscape James Couper Wright (1906-1969)...Born: Kirkwall, Scotland. Studied: Edinburgh College of Art. Member: American Watercolor Society, California Water Color Society. James Couper Wright grew up in the Orkney Islands. After attending the Edinburgh College of Art, he went to France and Germany on a scholarship to study the design of stained glass windows. While studying this art form, he worked with transparent painting mediums and became particularly interested in watercolor painting. He came to California in 1930 and settled in Pasadena. Transparent watercolors were his favorite medium, and while he often went out on location to sketch, he preferred to paint his final works in the studio. As an art instructor, Wright taught at the Otis Art Institute, Occidental College and Coronado School of Fine Arts. He also conducted private classes in watercolor painting for many years.
